

National webinar report

Topic- "Economic and infrastructure readiness of india dealing with covid-19 pandemic"

Date- 14/07/2020

Time- 1pm.

Govt. Dr. Indrajeet Singh College organised one day national webinar was organised by the department of commerce and collaboration with IQAC in Govt. Dr. Indrajeet Singh College Akaltara on 14/07/2020 on topic dealing with current pandemic covid-19 "Economic and infrastructure readiness of india in dealing with covid-19 pandemic".

In this programme the Chief guest and resource person was Dr. Sudhir Sharma, Secretary, Atal Bihari Vajpayee University, Bilaspur and another main resource person was Dr. Ashish Mathur, Head, Department of Commerce, IG. National Tribal University Amarkantak (M.P.) in this programme above 94 students, scholars and faculty members participated.

Webinar was started with introductory and welcome speech of guests and resource person by Vishnu Verma, Head, Commerce, Dr. Govt. Indrajeet Singh College Akaltara with welcome speech he introduced participants about today's burning topic covid-19 its effects in our country and the whole world. He said that due to pandemic the economy has extremely harmful and destructive effect on the economy of our country and the whole world. According to Indian economy progress report "the rate of progress decreased to 3.1% only. Due to pandemic extreme growth in unemployment, decrease in income of government, industries, specially tourism and it has also brutally damaged social, economic, as well as political authority.

Since 1990 India has been facing economic depression meanwhile pandemic started in 2019 made it worse. Although after our Indian government has declared many packages to tackle and reduce the critical financial situation, like food security, health security, extra funds for State governments, extra time to pay taxes and loans etc. Overall financial economic package was more than 1 lakh 70 thousand crores.

Next Dr. Pratiksha Mairal, Principal of Dr. Indrajeet Singh College delivered welcome speech she said during lockdown all factories, industries, markets all are shut down which has made our financial condition worse. UNO who has declared that coronavirus is not only pandemic for health only it has also brutal effect on global economy.

Chief guest Dr. Sudhir Sharma (Registrar, Atal Bihari Vajpayee University, Bilaspur) said "pandemic has not only affected Indian economy but all over the world. According to World Bank assessment pandemic is going to play extremely bad effect on Indian economy and economic growth will be decreased.

More than 2.5 crore people are going to be unemployed. Millions of people have lost their jobs. To control pandemic, our government has declared lockdown and to follow social distancing. It has bad effect on industries especially.

It's need our how's that a committee of economists and planners should be formed so that they can make plans to tackle bad effects of pandemic so that our Indian economic critical situation must be improved gradually. Within short period of time the committee must put their recommendation to government to control and tackle critical financial situation.

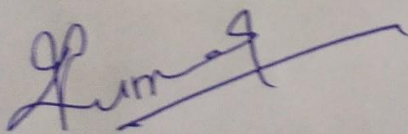

As a main resource person Dr. Ashish Mathur (head department of commerce) delivered speech as 'Economic Infrastructure readlines of Indian dealing with covid -19 pandemic'. He said, "covid -19 pandemic has effected the basic infrastructure and projects in the global level. on board sense basic infrastructure of any nation is the public services and sectors fundamental infrastructure is the group of basic facilities which includes public services, basic needs and facilities especially Economic infrastructures which runs lives of citizen smoothly. Basic infrastructure includes public and private infrastructure like- roads, railway, bridge, tunnels, heater supply, sewage, electric grids means of communication etc.

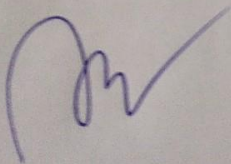

Covid-19 has decreased, growth in the field of basic facilities and infrastructure. It has also increased employment rate and extremely destroyed our economic basic infrastructure. Govt is also facing decrease in revenue econoo depressions, weaker health facilities, lack of experts and slailledy workes whi can tackel and handle pendamic etc has made the situimore critical and worse.

To maintain the critical Economic situation se need a lot of efforts in the india context of global pendamic we have to think deeply on two aspect firs the lowest populaiof Indian economy like farmers, workers, labour'sof unorganized sectors, daily wages workers and worker in very small industries and the second manufacturing sector, business secty, industrial. Globally government are working in these two aspects, Indian govetryhas declared packages of 1.7 laks crore for weakest start of common people like farmers and works yet govt has declared any package for business and industry secty. We hope govt will declare it later to maintain the backbone of our Economic infrastructure.

At the end of the programme Prof. J. N. Kurrey gave vote of thanks to guests and all participants webinar was hosted by IOAC incharge prof. Upendra Kumar Verma.
