**Context-** The national service scheme popularity known as NSS in the country is a scheme for the students in the +2 level institutions, college of general as well as professional and technical institutions and university. In India the idea involving students in task of national service dates back to the time of mahatmagandhi. The central theme which he tried to impress time and again was that education should not be confidential to class room only but it should be force Fulmedium for inculcating social and moral values and that students should go beyond the campus, live with community offer social services, understand them their practices and ti find means to solve them in the best possible way. The main objective of NSS wasprimarily to give on extension to higher education system and to orient the student youths to community service while studying in educational institutions. But now objective has been expanded and is aimed at arousing social

consciousness among students and to provide them with the opportunity to work with people around educational campuses creatively and constructively and to put the conceptual education they receive, for the concrete social use. It has been felt that the primary aim of the scheme is to enable the students to upgrade their personality and experience through community. There fore, the objective of the scheme is "Development of the personality of students through community service"
