

REPORT

TOPIC "Awareness and prevention of Black fungus".

Organized by IQAC and Red Cross Unit of the college in collaboration with Shri Rishabh Vidyodhya Vidyalaya Akaltara.

DATE-22-05-2021.,TIME-3.00pm onwards.

*RESOURCE PERSON/SPEAKERS

S.no	NAME OF RESOURCE PERSON	TOPIC
01	Dr.L.C.Madhariya	Prevention of Black Fungus

CONTEXT

Admits the terror of the COVID-19 pandemic, there has been a new infection that has emerged to be an epidemic in parts of India. The Black Scientifically known as mucormycosis is an aggressive, severe and rare fungal infection that is affecting a number of pre and post COVID-19 patients. The majority of the cases has been the infection of patients that are recovering or have recovered from COVID-19. It has piled onto the number of strain that the country is facing as we had only just begun to understand a means to cope with the present pandemic the infection of the black fungus is spread in those people whose immune system is compromised and is not strong enough to fight back. The infection medications like steroid and some antibiotics that are administered to COVID-19 are immunosuppressant this make it may also susceptible this will change to the infection is spreading.

The purpose of conducting a webinar on this topic in the college. Is to inform the student and faculty about the symptoms visible in body due to infection of black fungus.

Conducting online webinar on this topic due to zero offline activity during the time of lockdown.

NUMBER OF PARTICIPANT'S- 100

Webinar report

10

Topic- National webinar on immunity against infectious disease.

Organised by- red cross unit and IQAC of the college.

Date- 18/05/2021 Time- 2.00 pm

Resource person/speakers

S.no.	Name of resource person	Topic
1.	Dr. Chaitanya niqam	Infectious disease

context- the primary functions of the immune system is to defend the body from pathogens which are disease causing organism such as virus and bacterial issue cells and proteins in the immune system work together to achieve this function to fight infection the immune system must be able to identify pathogens. The immune system comprises innate and adaptive immune responses coordinated to prevent infection innate immune responses are early responses based on preformed cells and effector molecules. In contrast adaptive immune response take several days to mount. (infectious disease are disorders caused by organism such as bacteria virus fungi or parasites an infection disease can be defined as an illness due to a pathogen or its toxic product which arises through transmission from an infected person an infected animal or a contaminated in animal object to a susceptible host. Coronavirus disease (covid-19) is an infectious disease caused by the sars cov-2 virus.

The purpose of conducting a webinar on this subject in the college is to educate the students and faculty at the time of pandemic covid -19 through experts what is the relief immunity in our body to fight the disease after corona virus infection and how immunity can be increased. Conducting online webinar about this topic due to zero offline activity during the time of lockdown.

Number of participants- 100

Brief- welcome speech was delivered by Mrs. Surekha Dewanagan asst. professor maths. The Incharge principal Dr. R.K. Banerjee has supported to get the programme with great success. The resource person Dr. Chaitanya Niqam Raipur, Discussed about infectious diseases its causes symptoms and prevention. Participants were enjoyed the programme. A lot of queries regarding covid-19 have been asked to the resource person and got satisfied with the reply made by the resource person himself. The programme was conducted by the IQAC coordinator Mr. U.K. Verma asst. Professor physics.
